Department of Medicine

Technical Seminar on Panel Design

FoMD Flow Cytometry Core

Wednesday, July 20th: Katz, 6-003A and B

RSVP: aja@ualberta.ca

10 am - 11 am

Breakfast Provided

Learn How to Build a Flow Cytometry Panel FAST

This seminar will take you through the three easy steps of building a panel with FluoroFinder.com. The free online tool contains the cytometer settings for the University of Alberta Faculty of Medicine and Dentistry Flow Cytometry Core. Join us to learn about fluorochrome selection, brightness, equivalent colors, building larger panels and more.

Features:

- *Antigen Density Selector*
- *19+ antibody / viability dye companies and growing*
- *>300 Fluorochromes visible in the pertinent cytometer channel*
- *And more...*
